Safeguarding on Site

If you have any concerns that a learner may be at risk of harm report it immediately to Safeguarding team who can be contacted via reception. Do not discuss your concerns with the learner and do not attempt to carry out an investigation. Whilst on college grounds you will see posters on display highlighting the designated Safeguarding Team

The Designated Safeguarding Lead for Petroc is:
Jane Hanson, Vice Principal Quality Curriculum and Learners.

We politely request that you do not:

- initiate verbal or physical contact with learners unless it is appropriate and part of the agreed reason for your visit,
- give any personal information to learners such as your mobile number, personal email or address,
- or engage in any communication with learners using social networking sites.

Safeguarding Principles

At Petroc the health, safety and well-being of learners is of paramount concern to us. We listen to our learners and take seriously what they tell us. We want to work in partnership with parents and employers to help each learner achieve their full potential and make a positive contribution to the world they will be part of in the future.

To promote a safe environment for learners, our selection and recruitment procedure includes all checks on staff and regular volunteers' suitability, including Disclosure and Barring Service checks, as governed by current legislation.

Visiting Speakers at Petroc – protocol

All external agencies and speakers must read the visiting speakers agreement –

- Petroc will assess the suitability and effectiveness of input from external agencies or individuals via the External Visiting Speakers Approval form to ensure that:
- Any messages communicated to learners support fundamental British Values and Petroc's values.
- Any messages communicated to learners are consistent with legislation and Petroc's values and ethos and do not marginalise any communities, groups or individuals.
- Any messages communicated to learners do not seek to glorify criminal activity or violent extremism or seek to radicalise students through extreme or narrow views of faith, religion or culture or other ideologies.
- Activities are properly embedded in the curriculum and are clearly mapped to schemes of work to avoid contradictory messages or duplication.
- Activities are matched to the needs of learners.

We recognise, however, that the ethos of Petroc is to encourage learners to understand opposing views and ideologies, appropriate to their age, understanding and abilities, and to be able to actively engage with them in informed debate, and we may use external agencies or speakers to facilitate or support this. Therefore by delivering a broad and balanced curriculum, augmented by the use of external sources where appropriate, we will strive to ensure our learners recognise risk and build resilience to manage risk themselves where appropriate to their age and ability but also to help learners develop critical thinking skills needed to engage in informed debate.

Thank you for helping to keep Petroc safe

Petroc is committed to safeguarding and promoting the welfare of learners and expects all staff visitors and volunteers to share this commitment. We are committed to the equality of opportunity for all.
