eduroam – Connecting Chromebook

1. Click on the wireless symbol by the clock, click on the arrow next to 'No network' and select eduroam from the list of wireless networks:

1 08:54 😻 📋 🍆	08:58 🤍 📋

2. Change the 'Server CA certificate' to 'Do not check'. Enter your username and password: There are two options, read this bit carefully:

1: If you are setting up your device to use at a PETROC Campus:

Set Username to your Petroc username **without** @petroc.ac.uk added on to the end. For example: ab12345

2: If you are setting up your device to use **at another institution** providing eduroam that you are visiting:

Set Username to your Petroc username **with** @petroc.ac.uk added on to the end. For example: <u>ab12345@petroc.ac.uk</u>

PETROC Campus

- 3. You should now be connected to eduroam:
- 4. Load the browser of your choice and browse to the Petroc eduroam web page: <u>www.petroc.ac.uk/eduroam</u> There is a link to install a certificate on your device that will improve web browsing while on a Petroc Campus.

5. Once the certificate has downloaded, open the Chrome browser and type *chrome://settings/certificates* into the address bar.

6. Inside the **Certificate Manager** go to the **Authorities** tab and click on the "Import..." button at the bottom of the manager.

7. Select **Google Drive** or **Downloads** to find the certificate file you downloaded 'petrocgateway.crt'. Select the file and Click on Open.

IMPORTANT: If the file does not show up in either list. Change the file type filter at the bottom of the page to "All files" and search again.
