1. Swipe down from the top of the screen and select WiFi. Make sure WiFi is on. Select 'eduroam' from the available WiFi networks:
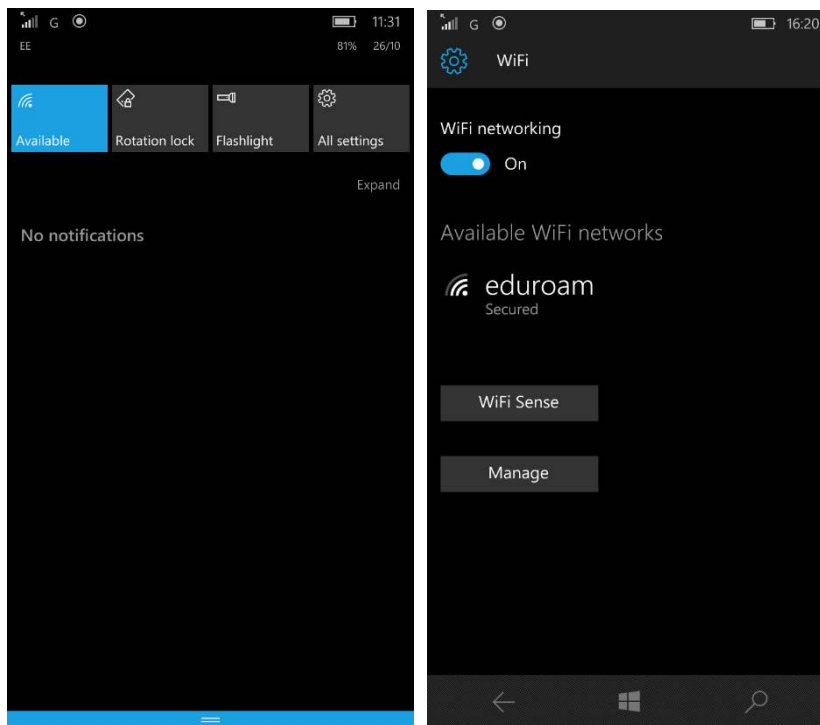

2. Enter your username and password: There are two options, **read this bit carefully**:

    1: If you are setting up your device to use **at a PETROC Campus**:

    > Set Username to your Petroc username **without** @petroc.ac.uk added on to the end. For example: ab12345

    2: If you have a Petroc account and are setting up your device to use **at another institution** that you are visiting that provides eduroam:
    > Set Username to your Petroc username **with** @petroc.ac.uk added on to the end. For example: ab12345@petroc.ac.uk

3. Read the screen carefully to make sure it is issued to BPL-RAD02 and issued by PetrocCA as below, and if it is click on Accept. You will then be successfully connected to eduroam.

4. Open your web browser and navigate to www.petroc.ac.uk/eduroam

5. Click on the link to download the certificate to improve your web browsing while on a Petroc Campus.

   Save it and access it from your downloads area, then click to install the certificate.
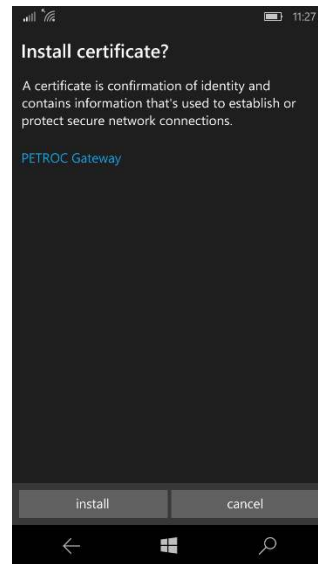

6. You are now ready to start web browsing.
